Birthday Parties: (\$100)

Wouldn't it be wonderful to not only get fantastic photographs of your darling little one's birthday but to also be in the photographs and enjoy the party as well? Well now, you can! We will have a pre-party consultation to discuss event timing and any special photographic requests you may have. I will arrive 30 minutes before the party to capture last minute setup, photographs of the decorations and cake. The total birthday session is between 90-120 minutes including guest arrival, games, and blowing out of birthday candles. (In addition, please see our information on portrait parties – it's fun for any play date!)
